

Editor's Letter

This issue of the *Nordic Journal of Business (NJB)* contains three peer-reviewed research articles. In the first article, Ulf Jakobsson and Timo Korkeamäki provide a review of the development trends in the ownership and corporate governance structures of large Finnish firms. The second article by Mila Hakanen and Mia Häkkinen focuses on the role of interpersonal trust in business networks. In the third article, Jukka Sihvonen and I analyze business research output in the Nordic countries across countries, disciplines, and academic institutions.

The *Nordic Journal of Business* welcomes submissions of empirical and theoretical papers in all fields of business studies. Different aspects of business theory and practice related, among oth-

ers, to accounting, corporate governance, entrepreneurship, finance, information systems, international business, management, and marketing are within the scope of the Journal. NJB is receptive to different methodological approaches as well as multidisciplinary business research. Although NJB provides an international forum for business research, submissions that focus on Nordic research problems or use data from the Nordic countries are particularly encouraged.

Please consider the *Nordic Journal of Business* as an outlet for your future research.
